WHEREAS, to aid the Agency in determining whether the Project may have a significant effect upon the environment, the Company has prepared and submitted to the Agency an environmental assessment form (the "EAF") with respect to the Project, a copy of which EAF was presented to and reviewed by the Agency at this meeting and a copy of which is on file at the office of the Agency; and

WHEREAS, pursuant to SEQRA, the Agency has examined the EAF in order to make an determination as to the potential environmental significance of the Project; and

WHEREAS, the Project does not appear to constitute a "Type I Action" (as said quoted term is defined in the Regulations), and therefore coordinated review and notification is optional with respect to the actions contemplated by the Agency with respect to the Project; and

WHEREAS, the Agency desires to conduct an uncoordinated review of the Project and to determine whether the Project may have a "significant effect on the environment" and therefore require the preparation of an environmental impact statement;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF RENSSELAER COUNTY INDUSTRIAL DEVELOPMENT AGENCY, AS FOLLOWS:

Section 1. Based upon an examination of the EAF, and based further upon the Agency's knowledge of the area surrounding the Project Facility and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

A. The project (the "Project") consists of the following: (A) (1) the acquisition of an interest in a portion of an approximately 14.50 acre parcel of land located at 164 Columbia Turnpike (tax map no. 155.13-21-13) in the Town of East Greenbush, Rensselaer County, New York (the "Land"), together with an approximately 123,000 square foot building located thereon (the "Facility"), (2) the renovation of approximately 96,000 square feet of the Facility and the making of related site improvements (collectively, the "Improvements") and (3) the acquisition and installation therein and thereon of related fixtures, machinery, equipment and other tangible personal property (collectively, the "Equipment") (the Land, the Facility, the Improvements and the Equipment being collectively referred to as the "Project Facility"); all of the foregoing to constitute a facility comprised of office space and a training center and associated uses and other directly and indirectly related activities; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the Act) with respect to the foregoing, including potential exemptions from certain sales and use taxes, real property taxes, real property transfer taxes and mortgage recording taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase) or sale of the Project Facility to the Company or such other person as may be designated by the Company and agreed upon by the Agency.

B. The only potential impacts on the environment noted in the EAF or otherwise known to the Agency, and the Agency's evaluation of the potential significance of same, are as follows:

1. The Project will create employment. The Application indicates that the anticipated number of new full-time employees, at the end of the second year of the completion of the Project Facility, will be approximately one (1). Due to the number of workers currently on the local unemployment rolls, this potential impact will not be significant.

2. The Project will not adversely affect any publicly-owned open space, public recreation and/or critical environmental areas.

3. It is not anticipated that any archeological or historical resources will be impacted by the proposed Project.

4. It is not anticipated that the Project will result in the generation of traffic significantly above current traffic levels and, as a result, the Project is not expected to cause any significant adverse impact on transportation.

5. A portion of the Project will be a training center which will encourage or attract a large number of people for more than a few days. As a portion of the Project is a "tourism destination" project within the meaning of Section 862(2)(a) of the Act, this potential impact will not be significant.

C. No other potentially significant impacts on the environment are noted in the EAF, and none are known to the Agency.

Section 2. Based upon the foregoing investigation of the potential environmental impacts of the Project and considering both the magnitude and importance of each environmental impact therein indicated, the Agency makes the following findings and determinations with respect to the Project:

A. The Project constitutes an "Unlisted Action" (as said quoted term is defined in the Regulations) and therefore coordinated review and notification of other involved agencies is strictly optional. The Agency hereby determines not to undertake a coordinated review of the Project, and therefore will not seek lead agency status with respect to the Project;

B. The Project will result in no major impacts and, therefore, is one which will not cause significant damage to the environment. Therefore, the Agency hereby determines that the Project will not have a significant effect on the environment, and the Agency will not require the preparation of an environmental impact statement with respect to the Project; and

C. As a consequence of the foregoing, the Agency has decided to prepare a negative declaration with respect to the Project.

Section 3. The Executive Director of the Agency is hereby directed to prepare a negative declaration with respect to the Project, said negative declaration to be substantially in the form and to the effect of the negative declaration attached hereto, and to cause copies of said negative declaration to be (A) filed in the main office of the Agency and (B) distributed to the Company.

Section 4. This Resolution shall take effect immediately.

The question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Ronald Bounds	VOTING	<u>ABSENT</u>
Douglas Baldrey	VOTING	<u>YES</u>

No other significant environmental impacts were identified by the Agency in its review of the environmental assessment form submitted to the Agency with respect to the Project and, based upon the Agency's knowledge of the area surrounding the Project Facility and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, no significant environmental impacts are known to the Agency.
