

Rensselaer County Water and Sewer Authority
2022 Annual Report

February 2022

Robert Pasinella, Jr., Chairman
John Mooney, Vice Chairman
Kenneth M. Harting, Treasurer
John Fetscher, Vice Chairman (deceased)

Linda von der Heide, Chief Executive Officer
William Film, Chief Financial Officer
Donna Murray, Secretary
Philip H. Dixon, Authority Counsel
Henry V. LaBarba, P.E., Authority Consulting Engineer

Overview

The Authority owns the Pheasant Run sewer system, a fifteen unit community septic system in the Town of Schodack. The Authority collects \$950.00 per year per unit for its maintenance expenses. Due to the age of the system, there had been a significant number of pump replacements and electrical system repairs performed in the last eight years, as most of the pumps were over 20 years old. This work depleted the existing reserves for Pheasant Run. The Pheasant Run account does not receive any County, Town or State direct support and is totally funded by the 15 serviced homes. In 2020, expenditures on service and maintenance of this system approximately equaled the annual fees collected from homeowners. The 2020 beginning balance was \$30,875 and the year-end balance was \$29,118. In October, the Authority voted to increase the sewer fee to \$950 beginning in 2021. In 2021, most if not all pumps had been replaced and the cost of repairs decreased. The amount of sewer fees collected for 2021 was \$14,250 and system costs totaled \$9,354. In 2022, the pumps and the system were optimally, and total costs for operation was \$4,439.75. The Authority is now actively looking for a contract to perform mowing of the leach field. The Authority will continue to pursue a more permanent operation and financing arrangement for this small system.

The Authority is also working with the Town of North Greenbush to finalize agreements for maintenance of the sewer line that the Authority owns along Valley View Road and the collection of hook-up fees for recent residential developments using the system. Our efforts were not successful in 2021 and we are hopeful that the Administration in the Town of North Greenbush will finalize the agreements, in accordance with the regulations of the New York State Department of Environmental Conservation (DEC). The Town is now working with the Authority when hook-ups occur and is now collecting and forwarding the hook-up fees for entities hooking into the system.

Finally, in the fall of 2018, the Authority was asked by the Rensselaer County Executive's Office to participate in applying for a \$1.5 million State Legislative grant to extend an existing sewer line in the Town of Schodack along Maple Hill Road up to NY Route 9. The Authority was successful in extending the life of the grant to December 31, 2021 and in getting the funding sub-allocated to DEC for processing. A consultant was selected for the design of the sewer line.

Rensselaer County Water and Sewer Authority **Mission Statement**

It is the mission of the Rensselaer County Water and Sewer Authority to foster public health and well-being and to promote economic development through the financing, management and operation of public water and sewer utilities for Rensselaer County and its local governments. In doing so, the Authority shall strive to provide such services in a cost-efficient manner.

Authority Measurement Report in Accordance with Section 2824 – a of the PAL

Management's focus in 2022 was to continue its efforts to collect sewer fees it was owed by various entities and to make the Pheasant Run system work optimally.

Management Report on Internal Controls

Management's focus in 2022 was to continue its efforts to collect sewer fees it was owed by various entities. The Authority worked with Rensselaer County on a \$1.5 million New York State Legislative grant to extend the existing sewer line along Maple Hill Road in the Town of Schodack out to State Route 9. Additionally, the Authority is working with the Town of North Greenbush on the hook-up of 36 future apartments to its Valley View Boulevard.
